May 19, 2008 -- Destination Television, Inc. (OTCBB: DSTV) announced today that they have agreed with QualityStocks to be featured in The Small Cap QualityStocks Daily Newsletter, Daily Internet broadcast with Cathy Rankin, Vanessa Ramirez and Jenn Hoffman and QualityStocks Daily Blogs and Message Boards. QualityStocks.net, based in Scottsdale, Arizona is a free service that collects data from hundreds of Small-Cap and Micro-Cap online Investment Newsletters into one Free Daily Newsletter Report. QualityStocks.net is dedicated to assisting emerging public companies with their advertising efforts and now has over 600,000+ subscribers that receive The Daily Stock Newsletter via opt in email.

Mr. Gordon Scott Venters, President and CEO, has the Company focused on the implementation of private television networks and digital signage solution in high traffic leisure destinations. Destination Television's current network broadcasts Bar TV, Gym TV and Hotel TV, airs first run Hollywood blockbuster movie trailers, and new and catalogued music videos. All are strategically placed with quality digital advertising.

Mr. Venters stated, "Destination Television has a unique and solid business foundation, and appreciates the opportunity to sponsor the Quality Stocks Newsletter, Video and Blogs. QualityStocks is providing a much needed service in the micro-cap and small-cap markets. We believe that Destination Television is positioned for continued growth and anticipates increased revenues."

Michael McCarthy, Managing Director for QualityStocks.net, commented, "We are very pleased to have Destination Television as a featured company. The Company is methodically establishing itself as a category leader."

About Destination Television, Inc.

Destination Television, Inc. (OTCBB:DSTV - News) is a core provider of entertainment content for out-of-home media, utilizing first run Hollywood blockbuster movie trailers and new music videos together with dynamic digital advertisements creating its unique brand of "Advertainment." Destination Television currently operates its own networks, Bar TV, Gym TV, and Hotel TV and has national network affiliations reaching hundreds of locations and millions of viewers every month.

May 19, 2008 -- Gulf Ethanol Corporation, (OTCBB: GFET) addresses its goals for its cellulosic biomass feedstock preprocessing system.

The success of the U.S. bio-industry depends, to a large degree, on the quantity and quality of biomass available, and on the industry's ability to cost-effectively utilize biomass for energy production. A successful bio-refinery must have access to an adequate supply of low cost biomass with desirable characteristics.

Gulf Ethanol plans to test its cellulosic biomass preprocessing system for capacity of preprocessing, throughput capabilities, and the performance parameters that will define scalability. The specific objectives of our preprocessing research will include efforts to quantify the

equipment's capabilities with various biomass feedstocks, such as sorghum, switchgrass, stover, and sawdust. Furthermore, preprocessing tests will help us determine performance and cost of the preprocessing operation. We plan to structure our testing to further identify strategies to increase preprocessed feedstock bulk densities and to determine the drying capacity of the equipment, all critical elements in cellulosic ethanol production.

The US Department of Energy goal is to determine if feedstock costs can be reduced to \$35.00 per ton of biomass. To achieve this the market needs feedstock preprocessing to allow for the creation of smaller particles and for dry storage. These milestones will increase ethanol yield and extend the shelf life of feedstock.

GFET's technology is expected to address both of these challenges by processing feedstock into very small dry particles for processing.

About Gulf Ethanol Corporation

Gulf Ethanol is an alternative energy company focused on the development of the cellulosic ethanol industry with a particular emphasis on Texas and the Gulf Coast.

May 19, 2008 -- Kentucky USA Energy, Inc. (OTCBB: KYUS), a natural gas exploration and production company announced today the signing of a letter of intent (LOI) with one of the largest natural gas distributors in the United States. The distributor is to purchase the production of gas from the Company's proposed wells to be located in North Christian, Muhlenberg, and Todd counties of the western Kentucky region. The gas will be purchased on a delivered basis into this distributor's utility system or the pipeline system that it manages.

Steven Eversole, CEO of Kentucky USA Energy comments, "This LOI will help our management team to rapidly move ahead with our plans this year. The distributor has the capacity to handle our development, and we are confident that we will complete this agreement and will be in a position to sell gas when our first wells are ready to be brought online."

About Kentucky USA Energy, Inc.

Headquartered in London, KY, Kentucky USA Energy, Inc. engages in the acquisition, exploration, and development of oil and natural gas resource properties, with a primary focus on shale gas in the Illinois Basin in Western Kentucky. The company is a growing independent energy company with the experience and technological expertise to develop the plentiful gas resources of the Illinois Basin's New Albany Shale.

May 19, 2008 -- NACEL Energy Corporation (OTCBB: NCEN) (Frankfurt: 4FC.F), a wind power generation company, reported on 19 May that it has signed a joint venture agreement to develop 600 megawatts (MW) of utility class wind energy with Ridge Partners LLC, a developer of infrastructure in the Caribbean and Latin America.

The companies believe that the wind generation project will provide additional revenues, as well as allowing them to aid the global carbon offset market.

NACEL Energy currently has 40MW of domestic wind power under development with the Blue Creek and Channing Flats projects, located in West Texas.

May 19, 2008 -- XsunX, Inc. (OTCBB: XSNX), a solar technology company, announced today that it has signed an agreement with Praxair, Inc. (NYSE: PX) for the supply of bulk industrial gases for its new multi-megawatt thin film photovoltaic (TFPV) solar manufacturing facility

near Portland, Oregon. XsunX is refurbishing an existing 90,000 sq. ft. building, located in Wood Village, to house its integrated TFPV manufacturing operations.

Praxair is a leading producer of industrial gases in North America and is uniquely positioned to meet the requirements for reliable supply of all gases required. "XsunX joins a growing number of customers that value Praxair's capabilities to reliably supply high-purity gases, sputtering targets and services for the PV industry. We look forward to supporting XsunX's production of PV modules and to help drive efficiencies in their operations," said Ray Roberge, president, Praxair Electronics.

"The agreement will provide for Praxair's expertise in the design, installation, and management of our gas handling and delivery systems and a long term contract to supply the bulk of our manufacturing gas needs," stated Mr. Tom Djokovich, CEO for XsunX. "We are pleased that such a major part of the integrated thin film TFPV manufacturing process is in good hands. Having secured gas supplies with Praxair to support a large part of our thin film TFPV manufacturing processes, we have begun to meet our short and mid term goals in the build out and supply of our multi-megawatt thin film photovoltaic solar manufacturing facility," concluded Djokovich.

About Praxair, Inc.

Praxair is the largest industrial gases company in North and South America, and one of the largest worldwide, with 2007 sales of \$9.4 billion. The company produces, sells and distributes atmospheric and process gases, and high-performance surface coatings. Praxair products, services and technologies bring productivity and environmental benefits to a wide variety of industries, including aerospace, chemicals, food and beverage, electronics, energy, healthcare, manufacturing, metals and others.

May 16, 2008 -- YTB International, Inc. (OTCBB: YTBLA) ("YTB" or the "Company"), a provider of Internet-based travel booking services for travel agencies and home-based independent representatives in the United States, Puerto Rico, Bermuda, the Bahamas, the U.S. Virgin Islands, and Canada, today announced its financial results for the three month period ended March 31, 2008.

Total revenue for the quarter ended March 31, 2008 increased 76.7% to \$42.7 million, compared to \$24.2 million for the first quarter last year. The Company's property and equipment increased from the December 31, 2007 balance of \$15.4 million to \$18.9 million as of March 31, 2008 or 22.7%. The number of RTAs increased to 138,814 in the first quarter of 2008 from 82,932 in the comparable quarter of 2007. The Company believes the significant increased number of RTAs is attributable to the emerging market shift for travel services to the Internet.

Net loss for the first quarter of 2008 was \$3.5 million, or \$0.03 per diluted share, compared to a net loss of \$2.2 million, or \$0.02 per diluted share, for the first quarter of 2007. The loss is primarily attributable to stock awards, and promotional and expansion expenses totaling approximately \$3.1 million. As of March 31, 2008, the Company had \$1.3 million in cash and cash equivalents. Net cash used in investing activities was \$4.1 million during the first quarter of 2008 compared to \$1.3 million used in the first quarter of 2007.

Scott Tomer, Chief Executive Officer of YTB, commented on the first quarter results, stating, "We are pleased by the significant increase that we experienced in our top-line results during the quarter. This growth speaks directly to the demand for our travel related services, and our ability to meet or exceed specific sales growth objectives through diligent execution. We are acutely aware that sustainable growth requires reinvestment in our company, and with this in mind, we incurred several charges during the quarter, directly related to the promotion of our brand, and the retention of our top performers and personnel. During the quarter, we also incurred expenses related to our expansion into three new countries to help build our international presence. Primarily due to these investments in our company, we reported a loss for the quarter."

Mr. Tomer continued, "During this first quarter we continued to focus on the sale of travel by our RTAs, as well as the strengthening of our executive team. We welcomed two new members to our Board of Directors, Mr. Paul Hemings and Mr. Burt Saunders, and we are excited by the valuable experience that they bring from their respective fields. Looking forward, we plan on continuing to execute our stated mission to revolutionize the travel field by offering affordable travel and unique opportunities for motivated individuals to participate within this burgeoning industry.

"We see our recent move to the Over-The-Counter Bulletin Board as a positive step forward for us, and welcome the new investors that are now able to participate in the growth of our company."

About YTB International

Recognized as the 35th largest seller of travel in the U.S. in 2006 by Travel Weekly, YTB International, Inc. provides Internet-based travel booking services for home-based independent representatives in the United States, Puerto Rico, the Bahamas, Canada, Bermuda, and the U.S. Virgin Islands.
